His Royal Highneſs the Duke of Cumberland's Horſe King Herod, beat the Duke of Grafton's Antonius for a Thouſand Guineas. The Betts on this Occaſion are ſaid to have amounted to more than a Hundred Thouſand Pounds. The Difference that determined this enormous Sum was no more than Half a Neck's Length. His Royal Highneſs, whoſe Life was tho't in Danger, is greatly recovered. An Inciſion was made in his Leg, juſt under the Knee, and a ſurprizing Quantity of Matter diſcharged, but the Wound is now healed.

We hear Commiſſions are come over from Jamaica to ſhip by the firſt Opportunity, Goods proper for the Spaniſh Market, to the Value of 90,000 l.

Oct. 31. The Advices received from America, are full of the bad Effects of the late Act of Parliament for regulating the Trade of the Plantations, and for laying a Duty on their Exports and Imports in order to defray the Expences of their own Government. The Prohibitions lain upon their Trade by this Act, are grievouſly complained of, and the Rigour with which theſe Prohibitions are enforced by the Men of War ſtationed on their Coaſts for that Purpoſe, are by no Means reliſhed by the Americans, who ſubſiſt in a Manner by their clandeſtine Commerce with the French and Spaniards, and which muſt be connived at, if any Advantage is to be expected from them by their Mother Country. On the other Hand, the Weſt-Indians complain of this Indulgence, and are preparing Memorials to be preſented to Parliament, to put a ſtop to the North-American Diſtilleries, from French Materials.

They write from Glaſgow, that great Numbers of Journeymen lately employed in the Stocking Manufactures, and buoyed up with high Proſpects of Encouragement made them by ſome American Agents, have embarked this Summer for Boſton and Philadelphia; where it is ſaid Four new different Branches in the Weaving Buſineſs have been already ſet up.

It is now ſaid, that for very prudential Reaſons, never leſs than five Regiments on the Britiſh Eſtabliſhment will from henceforth be kept in Commiſſion in the Province of New-York, Pennſylvania and New-England. It is expected, that Penſacola in Florida, and two Britiſh Iſlands in the Weſt-Indies, will ſpeedily be declared free Ports.

We hear a Liſt of all ſuch Goods as are hereafter to be deemed Contraband in any of the Colonies of North-America, are now making out, and will be ſent over by the next Packet; according to which his Majeſty's Sea and Land Officers, Collectors of the Cuſtoms, are to regulate their Conduct with Regard to all future Seizures.

Extract of a Letter from a Gentleman in Virginia, to his Friend in this City, Sept. 4.

"There is the ſame dull Round of Buſineſs purſued as uſual; the Courts are filled with Law-ſuits, and many People are obliged to ſell their Eſtates. Melancholy and Uneaſineſs are viſible in moſt Countenances, and happy is the Man that can keep his Effects together. Tobacco is low, and Grain of all Sorts much fallen; from whence then is to come our Relief? It can happen, in my Opinion, only from the ſtricteſt Frugality in our Affairs. Hemp and Flax are the two Objects that are looked on, as if they would deliver us; and ſo they may in a great Meaſure, but ſomething elſe is neceſſary."

It is ſaid that the Sum of 30,000 l. will be granted next Seſſions for the better rendering the Baſon of Penſacola one of the beſt Receptacles for Trade and Shipping on the Britiſh American Continent.

It has been a Queſtion among the Learned in France, whether the Heat from a Chimney, or from a Stove, is moſt wholeſome? M. Mongin, a French Phyſician maintains, that the ferrugineous Heat from Stoves penetrating through the whole Maſs of circumambient Air in the Room, muſt unavoidably affect the Head; and that the Intenſity of that Heat rarifies the Air in the Room to ſuch a Degree as to be ſuffocating; and occaſions us to breathe a hot, fuliginous, and unelaſtick Air, which produces Palpitations of the Heart, Aſthmas, habitual Qualms, Headachs, Lethargies, &c. Upon the whole, he concludes, that the Heat from a Chimney is more wholeſome than that from a Stove.

The Faculty at Paris have at laſt determined the great Queſtion relating to Inoculation, by a Plurality of 52 Voices againſt 25, in Favour of that Practice.

A curious Medal has lately been ſtruck at Stockholm, in Honour of Inoculation; it repreſents an Altar of Eſculapius, with a Serpent twiſted round it; the Motto, SUBLATO IURE NOCENDI.

In the laſt Meeting of the Aſſembly held at Charleſtown, South-Carolina, his Honour Lieutenant Governor Bull, who in all his Actions appears another Pitt, being truly actuated with the Spirit of Patriotiſm, ſtrongly recommended to their ſerious Conſideration, the pernicious Conſequences of encouraging the farther Wear or Importation of French Manufactures, and it is thought a Law will be paſſed at the next general Meeting to lay the Practice entirely aſide.

Mr. Lloyd, an eminent Merchant in Georgia, has lately imported ſeveral Thouſand Plants of the Logwood Trees from Honduras, in order for Cultivation on the River Savannah. Thoſe already planted thrive well, and ſeem to promiſe that in a few Years Great-Britain may be ſupplied with this uſeful Dye from her own Colonies, in ſufficient Quantities to anſwer all the Purpoſes of Manufacture.

The Circulation of Copper Money in N. America, has for ſome Months paſt been increaſing in Proportion as that of their Paper Currency has been called in. Some Tons of Farthings are now ordered in Commiſſion from Philadelphia and New-York, for the Benefit of ſmall Change in the Retail Trade; which, it is thought, will ſoon occaſion a new Dye at the Tower.

They write from Madrid, that his Catholic Majeſty is determined, at whatever Expence, to promote the ART of PRINTING within his Dominions; for which Purpoſe he has ſettled handſome Penſions upon ſeveral Gentlemen (both Printers and Letter-Founders) who are engaged in the forwarding that noble Art, ſo unſpeakably beneficial to Mankind.

By recent Letters from the Genoeſe, there is Advice, that 43 Segar Veſſels were loſt, ſwallowed in that Iſland by Earthquakes ſince the Peace.

A Gentleman lately arrived from Denmark ſays, that though the Fortifications of the Works are demoliſhed, the Foundations are

[illegible] above three Feet under low-water Mark; and he computed their large Stone Jetties, confining the Mouths of the greatest Consequence, taken from thence.

About a Month since, an eminent Counsellor in one of the Inns of Court, embarked with a young Lady, Sister to a Member of Parliament, in order to make the Tour of France: On the Road, the Lady was taken very ill, and a Physician being sent for, after some Enquiry, he found her to be in Labour, and advised a proper Person to be called, which so alarmed the Gentleman of the long Robe, that he left the Lady abruptly, and is not yet returned to England.

Tuesday last his Royal Highness the Duke of York was pleased to express great Satisfaction, at seeing Mr. Thomas Betts's Glass-Mill, at Lewisham in Kent; it is the first of its Kind that has ever been erected, and is a Means of making great Improvements in that Art.

The Glatton East-Indiaman, arrived from China, has brought home, among a Variety of other Goods, 651,600 Pounds of different Sorts of Tea, 72 Chests, 71 Half-Chests, and a Box of China Ware besides. On Tuesday the above Ship arrived in the Downs, and sailed immediately for the River.

It is said that two great Personages have very lately signified their Intention of wearing nothing but what is of true British Fabric; in order to discountenance, as much as possible, all foreign Manufactures in this Kingdom.

Nov. 10. We are informed, an Estimate of the Civil Establishment of each of the British Colonies in North America is now making out in order to be presented to Parliament.

It is said a new Academy, in the Manner of that at Woolwich, is to be endowed at New-York, for the future training up young Gentlemen in the Art of Engineering, and supplying the Artillery of that and the neighbouring Provinces, without being under the Necessity of being obliged to have fresh Draughts from the Royal Artillery of England.

We are informed a Scheme for imposing a general Stamp Duty in North America is now finished, upon a new Plan, against the ensuing Sessions; the Profits to be applied for the better Security and Defence of the Colonies.

If our Colonies, from any Disgust or any Restraints that have been laid on their Commerce, should take it in their Heads to raise amongst themselves, all such Goods and Manufactures as they are wont to be supplied with from England: Of what Use or Benefit will they be to this Kingdom? This would be a most severe Blow to our Trade and Commerce, and therefore it is to be hoped, some Remedy will be immediately found out and applied.

By a Ship arrived at Bristol from Africa, there is Advice, that Brick-Makers are much wanted by the Factory at Senegal, where there are already in that Neighbourhood several Brick-kilns; but, though the Clay is good, for want of proper Persons skilled in the Business, they cannot go on so vigorously in erecting Forts and other publick Works and Magazines, as could be wished, and some late Movements of the French on the Coasts of Guiney seem to require.

Extract of a Letter from Hamburgh, October 19.

"By our last Accounts from Petersbourgh, we learn, that the Empress had put off, for some Weeks longer, her return to that Capital. Some extraordinary Councils have been held upon Affairs of the last Importance to the Peace and Prosperity of the Empire. The bad State of Health in which the grand Duke has been, for some Time past, has been the principal Subject of these Deliberations. It is said, that his Highness labours under a consumptive Disorder, which gives little or no Hopes of his Recovery, and that his Physicians begin to despair of the Success of their Re-

medies. The Senate, duly informed of this, have recommended the Empress to take such Measures as her Wisdom and Prudence shall naturally dictate on this critical Occasion, and have expressed their Desire that her Imperial Majesty would, conformable to the Laws and Constitutions of the Empire, name a Successor to the Imperial Throne in Case of the Demise of the Grand Duke."

We are informed another Regiment of Foot will soon embark for New York.

We are informed, a Bill to encourage the Growth of Oak, and for the better preventing any future Waste of the national Stock of Timber in this Kingdom, is now ready for the Inspection of Parliament.

Samples of Cinnamon, Gum Copal, wild Mace, and Cassia, the Growth of St. Vincent, in the West-Indies, have been lately imported, which is said to equal the best from the East-Indies.

They write from Paris, that the Chevalier de Turgot, Governor General of Guiana, sailed from Rochelle the latter End of last Month, on board the La Bricole Man of War, of 50 Guns, accompanied with another Ship of War of 60 Guns, with all Sorts of Provisions. He has taken only 300 Soldiers, but a very great Number of Troops will soon follow.

Imported Yesterday 150,000 lb. Pearl-ashes from Trieste, 190 Tons, 265 Ditto Iron from Russia, 416 Cwt. Sugar, 1900 Gallons Rum from the West-Indies. Exported, 40 Tons Lead for India, 140 Cwt. Ditto for Hamburgh, 2889 lb. Indigo for Ireland, 1600 lb. Gunpowder for Carolina, sundry Merchandizes, to the Amount of 10,5000 l. for Jamaica, and 143 Cwt. Lead for the West-Indies.

The new commercial Regulations in North America are complained of as grievous to the Colonies. Every King's Ship is a Guarda-Costa, and every Cargo of the American Product is deemed prohibited Goods. Flour, Bread, salt Provisions, Lumber, Fish, live Stock, Poultry, fram'd Rafters, Iron Work, Cooperage Stores, &c. are Commodities always welcome to the French and Spaniards, by the Exportation of which the Planters in America are enabled to make their Remittances to England, and for which they receive in return from the French and Spaniards either Money, or Rum, Sugar and Treacle at 30 per Cent in their Favour; if, therefore, this Traffic is prohibited, the Colonies must be ruined, and the Mother Country, by that Means, lose the only gainful Branch of Trade by which her Manufactures are principally supported.

A most affecting Letter has appeared in the Papers from Capt. Summers, Commander of an American Vessel from New-London for Dominica with Horses, Lumber, Fish and Onions, but, happening in hazy Weather to fall in with Martinique, was boarded by a Guarda-Costa, his Ship seized, himself and Men stript and imprisoned in a Dungeon among Negroes and Felons, the Vessel and Cargo confiscated, the Owners fined, and the Captain charged with the Expences of Confiscation; which not being able to pay, he has remained in that miserable Situation six Months.

On Saturday the 13th ult. 23 French Hair-dressers, 19 Milliners, 17 Cooks, &c. landed at Union-Stairs from France!

On the 21st ult. Died the Rev[d]. Mr. Roe, Ordinary of Newgate.

The 26th ult. Died WILLIAM HOGARTH, Esq; the celebrated Painter.

As much has been lately said of the People on the Continent of America setting up Manufactures at this Time, to rival Ours, it may not be amiss to observe, that this is no new Complaint; and we have it from the best Authority, that in 1719, when Col. Shute was Governor of Massachusetts-Bay, in New-England, he informed the then Board of Trade, that in some Parts of the Province the Inhabitants then worked up their Wool and Flax, and made a cruse from the[ir] own Use; there were 2[illegible] Hatters in the Manifest Towns; they also manufactured the greatest Part of their Leather; and that six Iron Furnaces and ten Forges were set up for making Iron. Governor Belcher, who succeeded him in 1731, confirms the same; and Col. Dunbar, Surveyor-General, of his Majesty's Woods in North-America, in his Letter to the same Board, of Sept. 1730, mentions their manufacturing and exporting Hats to Spain, Portugal, and the West-Indies. And the above Col. Dunbar concludes his Accounts with observing to their Lordships, "That it is with the greatest Difficulty we "are able to procure true Information of the "Trade & Manufactures of New-England; "which will not appear extraordinary, when "we acquaint your Lordships, that the Assembly of the Massachusetts-Bay had the "Boldness to summon Mr. Jeremiah Dumbar, Deputy Surveyor of the Woods, before them, and pass a severe Censure upon "him, for having given Evidence at the Bar "of the House of Commons of Great-Britain, "with Respect to the Trade and Manufactures of this Province."

Nov. 11. It is now said, in order to prevent Impositions and needless Expence, no future Indian Chief or Black, from Africa or America, will be countenanced in London, who do not bring over proper Certificates, signed by their Nation and back'd by the British Governor, setting forth the Reason of their Expedition; and whatever Captain, either in the Navy or Merchant's Service, importing such, without these Vouchers, will be liable for the Expence.

We hear that a Memorial, being presented by the Earl of Hertford to the French Court, setting forth the illegal Proceedings of the Governor of Goree, in attempting to establish a Settlement near the River Gambia, in Africa, that Court has declared its Disapprobation of his Proceedings, and he is recalled to give an Account of his irregular Behaviour.

It is now reported, that a Negotiation with his Excellency the Count de Gouchy for the intire Purchase of New Orleans and the French Part of Louisiana to England, is on the Carpet and far advanced.

Letters from Holland mention, that the improved Skill, and Military Discipline of the Forces under Cossim Aly Cann, has been discovered to be, in a great Measure, owing to the Number of Europeans now in his Pay, particularly French, Spanish, and Dutch Officers, whom that Tyrant has drawn over by large Rewards, and high Promises. Four Engineers, late of Pondicherry, are said to have 1000 Rupees per Month; and to Armourers, Gunsmiths, Sword-cutlers, and other Persons skilled in the Construction of military Weapons, he gives 500 Rupees Bounty.

Great Numbers of new Muskets, Horse Pistols, &c. are every Day proving at the East-India Company Warehouses, near White-chapel Road. It is said Thirty Thousand Stand of Fire-Arms will be shipt among their other military Stores for Bengal.

We are assured the People in Power are so fully convinced that the Restriction on the Commerce of the North American Colonies is so materially prejudicial to the Public, that the Vessels stationed in those Parts to see it enforced, have been told a Negligence in their Duty will not be thought very culpable, till the Law is repealed at the next Session of Parliament.

'Tis said some Amendments will be made next Sessions, in the Laws relating to Bankrupts, and that none will be allowed to have Certificates signed, but such only as can make full and ample Proof of Losses at Sea, by Fire, Storm, or Tempest, Inundations, or the Failure of Persons in their Debts, or for whom they were Securities, or for some other notable and apparent Cause, wherein neither Negligence, Extravagance, nor Fraud, did appear.

It is rumour'd, That the King has been Defrauded of Fifteen or Twenty Thousand Pounds Sterling, of his Revenue in America; and that Governor G——be, of Anguilla, and another G——r (of as good a Character) upon that Continent, are best acquainted with the Affair.

We are informed that the late Mr. Bonner, of Field-Lane, who dealt in Sheep-heads, amassed very near 10,000 l. in that low Occupation.

Portsmouth, October 21. We hear that 20 old Men in our Dock-yard have been discharged lately, on Salaries of 20 l. per Annum.

We likewise hear that the Labourers, that have been discharged from the Duty of watching in the Dock-yard, have half the pay of the above Duty continued to them.

Dublin, October 13. We are well informed, that Mr. Richard Brewer, of this City, (who took his Passage last Week in the Kildare, Capt. M'Cullough, for Parkgate) is actually gone to London, to sollicit a Patent from his Majesty, for instituting a Quadrant of his own Invention, which is formed on Principles so accurately and admirably adapted as to be said infinitely to surpass any Construction of that Kind, that ever was known. It is likewise affirmed, that he also intends to exhibit a Plan, on an entire new System, for the effectual Discovery of the Longitude.

BOSTON, *December* 24.

Tuesday last arrived in Nantasket Road the Fortune Sloop of War, Capt. Bishop, from Halifax. On her Passage she met with such stormy Weather that the Crew were obliged to throw over 5 of her Carriage, and all her Swivel Guns; the Cold was so severe that, we hear, none of the Officers, except the Captain, were able to stand the Deck.

The Cygnet Frigate, Capt. Leslie, bound from hence to New-London, is put into Rhode-Island, having been out 14 Days. She met with very bad Weather, in which her Pinnace was washed off the Deck.

His Majesty's Ship Maidstone's Tender, which was supposed to have been lost, is now at Salem.—She has been in great Distress, but got in the 13th Instant, then a hard Gale at N. W.—They were obliged to bring to, the 25th of last Month, at 6 in the Morning.—The Gale continued very hard two Days and three Nights, without any Alteration but that of a great Sea.—The Night of the 26th it laid her down so much that her Ballast shifted—the Mainsail filled with Water, and as the Sea made a Breach over her, it filled the Foresail, with Difficulty they cut away the Mainsail and Boom, which righted her a good deal; and then trimmed the Hold.—They judged themselves in Lat. 37-00.

We have Advice that the French are settling, with 4000 Persons, a Colony at a Place call'd the Triangles, a little to Windward of Surrinam: They claim as far Westward as the River Mariwina, Part of which Claim is within a few Leagues of some Dutch Plantations.—This Procedure of the French very much alarms their good Friends the Dutch, who have sent an Express to the States with an Account of this Affair, and another to the Commander of this new French Colony, to know the Reason of their forming this Settlement.—This Step is the more alarming on Account of the great Number of wild Negroes on the Back of the Dutch Plantations; who, tho' at Peace now, may perhaps be made the same Use of against the Dutch, as the Indians on this Continent have been against the British Settlements.

HARTFORD, *January* 1.

We hear from Sharon, that a Girl of that Place, Twelve Years old, and small of her Age, was a few Days ago delivered of a Son, weighing when it was born, near Fourteen Pounds, and that the Mother and Child are likely to do well. A rare Instance of the Prolific Constitutions of the Country.

We have from Salisbury, that a few Days ago, as a Man was going up a Pair of Stairs with a Bag of Salt on his Shoulder, he accidentally slipt, and broke one of his Legs short off, but being immediately assisted by a very able Surgeon, he could walk again within 24 Hours as well as usual. [*This* able Surgeon *was doubtless* a Carpenter, *as the supposes it was a wooden Leg that was broke.*]

PHILADELPHIA, *January* 24.

On Sunday last Captain Fither, late of the Sloop Sally, arrived here by Land from North-Carolina. He sailed from Pensacola for this Place the 20th of October, but met with a hard Gale of Wind, in which his Vessel sprung a Leak, and made so much Water, that they were obliged to keep both Pumps going. The 24th they made the Island of Cuba, and plying to Windward, the Sloop sprung her Mast, and receiving other Damage, on the Fourth of November went ashore on the Colorades, having her Rudder knocked off, and five Feet Water in the Hold; the People then took to the Boat, and arrived at the Havannah the 12th of November.

We learn from New-York, that the Packet was blown off the Coast about a Month ago, when, it was feared, a Ship and Sloop were seen to sink.

ANNAPOLIS, *February* 7.

We are still clogg'd up with Ice, not having had so much continu'd hard Weather for many Years; but it seems to begin to break away.

Monday last, a very merry Set of Gentlemen, had a commodious Tent erected on the Ice between the Town and *Greenbury's* Point, where they had an elegant Dinner, *&c. &c.* and in the Afternoon diverted themselves with Dancing of Reels, on Seates, *&c.*

About a Fortnight ago, Died in *Charles* County, much regretted, Mr. John Truman Stoddert, one of the Representatives of that County.

By a Paragraph in the 3d Column of the first Page of this Paper, our Readers will see, that we are like to have TONS OF MONEY soon imported into *North-America*; a great Part of which we may reasonably expect will center in *Maryland*, as long as we continue to take Twelve English Copper Half-Pence for A Shilling. This is a growing Evil, and if not soon put a Stop to, must be of bad Consequence. Will any Creditor take 1000 Dozen of Coppers, for a Debt of 50 Pounds, reckoning Dollars at 7/6? NO.

THE Subscribers beg Leave to inform the PUBLIC, That they have lately Erected, at *BALTIMORE-TOWN*, in Maryland, A DISTILLERY for making RUM; which, (by many good Judges who have seen it) is allowed to be one of the largest, compleatest and best conducted STILL-HOUSE of any in North-America: And having furnished themselves with an expert DISTILLER, and a plentiful Stock of MOLASSES, they purpose to carry on the DISTILLING BUSINESS extensively, and to supply customarily the Demand for Home-made RUM, at nearly the same as the *Philadelphia* Prices, at least on much lower Terms than the Province of Maryland has been generally supplied with that Article. The RUM already made by them has been highly approved by the best Judges, and deemed superior to either *Philadelphia* or *New-England* RUM; and they hope to give Satisfaction to the Public, as well to maintain their own Reputation, by continuing to make Rums of the same approved Quality.

As this Undertaking is so well calculated to promote the general Trade of the Province, and so convenient for supplying the Country Traders, Farmers, &c. who bring their Produce to *Baltimore* Market, as well as to promote the private Encouragement of the Owners; it is hoped the Public will give proper Encouragement to a Branch of Trade so useful, and so much wanted in the Province.

Any Gentlemen wanting Quantities of RUM for Exportation, by giving timeous Notice may be supplied, and proper Allowance made to such.

Their humble Servants,

SAMUEL & ROBERT PURVIANCE, & Comp.

ALL Persons Indebted to the Subscriber, on Bond, Note of Hand, or Book Account, are requested to come, settle and pay their respective Ballances, on or before the first of *April* next, or they may expect to be Sued and Warranted, without further Notice.
